# Project Proving Grounds 0.2.3: how the bots play each game

Updated Nov 14, 2026

Here's an honest look at where the bots stand in every game, game mode and vehicle in this version. I only rate something green once I've seen it working properly in real matches, so a lot is still yellow: it's playable, I just haven't tested it enough yet or it still has rough edges. I'm working through the reds and yellows, and I'll update this sheet with each release.

**Good to go**
The bots play it properly.

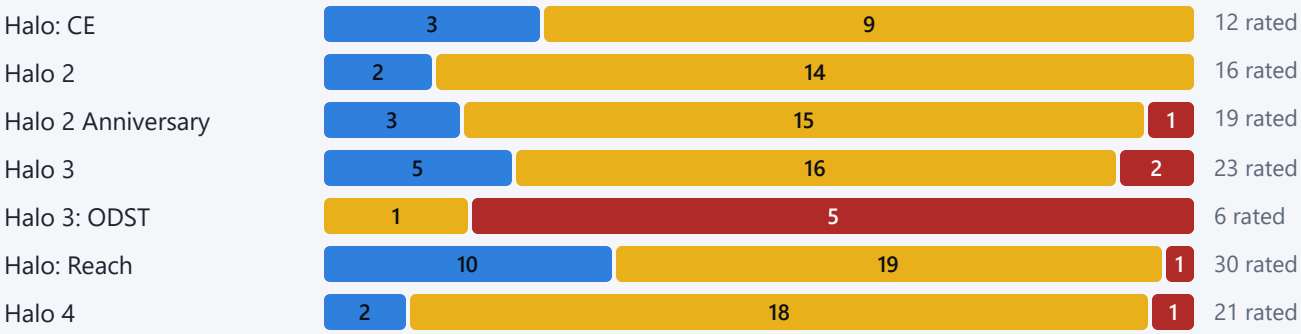

**Little buggy**
Good to play, with a few small bugs.

**Needs work**
Playable, but still buggy or not tuned yet.

**Not working**
Not playable yet, or the bots ignore the objective or the vehicle.

"Tested in a match: no" means it works in my tests, but I haven't seen it in a real match yet, so it stays yellow at most.

## Every game at a glance (game modes and vehicles together)

127 rated in all: 0 good to go · 25 little buggy · 92 needs work · 10 not working

# Halo: CE

3 little buggy, 9 needs work

## HALO: CE · GAME MODES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Team Slayer | Little buggy | yes | Bots spawn, fight, score and use the map's weapons well. |
| Free for All | Little buggy | yes | Plays cleanly on Battle Creek and Hang 'Em High, also when the lobby has players on teams: in a free for all every bot plays for itself. |
| Capture the Flag | Needs work | yes | Bots take and capture flags in real matches, but games are still low-scoring (one or two captures in 15 minutes on Hang 'Em High and Battle Creek), and on Blood Gulch they rarely make it to the flag. |
| Oddball | Needs work | no | Bots carry the ball and score in my tests, but I haven't tried it in a real CE match yet. |
| King of the Hill | Needs work | no | Bots hold the hill and score in my tests, but I haven't tried it in a real CE match yet. |
| Race | Needs work | yes | Bots race the flags in order and finish laps; on Blood Gulch they drive, but often get stuck at one flag up on a rock. |

## HALO: CE · VEHICLES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Warthog | Needs work | yes | Bots drive it in Race, but I haven't checked their gunning yet. |
| Rocket Warthog | Needs work | no | Supported, but I haven't seen a bot use it yet. |
| Ghost | Little buggy | yes | Bots drive and shoot the Ghost well; I last checked it in Race. |
| Scorpion | Needs work | no | Supported, but not tried in a real match yet. |
| Banshee | Needs work | no | Not tried yet, and bots can't fire its fuel rod bomb in CE. |
| Mounted turrets | Needs work | no | Supported, but not tried in a real match yet. |

# Halo 2

2 little buggy, 14 needs work

## HALO 2 · GAME MODES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Team Slayer | Little buggy | yes | Bots fight really well here (Halo 2 SWAT is my benchmark for Legendary), and they use vehicles now. |
| Free for All | Little buggy | yes | Plays and scores well. Like Team Slayer, no vehicles yet. |
| Capture the Flag | Needs work | yes | Bots capture flags, but sometimes a carrier can't score or one team never goes for the flag. |
| Oddball | Needs work | no | Bots carry the ball and score in my tests; not tried in a real match yet. |
| King of the Hill | Needs work | yes | Just fixed: bots now go to the hill and score, but I've only checked one short match. |
| Assault | Needs work | no | Bots carry the bomb in my tests; not tried in a real match yet. |
| Territories | Needs work | no | New in this version: bots take territories in my tests; not tried in a real match yet. |
| Juggernaut | Needs work | no | Bots should spot the Juggernaut by his overshield; not tried in a real match yet. |

## HALO 2 · VEHICLES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Warthog | Needs work | yes | Bots get in, drive it and man its chaingun. |
| Gauss Warthog | Needs work | yes | Bots get in, drive it and man its gauss gun. |
| Ghost | Needs work | yes | Bots get in, drive, shoot and boost. |
| Banshee | Needs work | yes | Bots fly it, shoot and boost; no tricks yet. |
| Wraith | Needs work | no | Not tried in a real match yet. |
| Scorpion | Needs work | yes | Bots drive it, fire the shell and its machine gun. |
| Spectre | Needs work | no | Not tried in a real match yet. |
| Mounted turrets | Needs work | yes | Warthog guns are manned; stand-alone turrets not seen yet. |

# Halo 2 Anniversary

3 little buggy, 15 needs work, 1 not working

### HALO 2 ANNIVERSARY · GAME MODES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Team Slayer | ⚠ Needs work | yes | Plays and scores, but bots can't pick up weapons off the map yet, and a few wander off, even into the water. |
| Free for All | ⚠ Needs work | no | Should play like Team Slayer, but I haven't tried it in a real match yet. |
| Capture the Flag | ⚠ Needs work | yes | Bots pick up the flag and scored on Zenith, but they get stuck in a few spots on Coagulation. |
| Oddball | ⚠ Needs work | no | Bots carry the ball and score in my tests; not tried in a real match yet. |
| King of the Hill | ⚠ Needs work | yes | Bots score on the hill in Crazy King, but I've only checked one short match. |
| Territories | ⚠ Needs work | yes | Both teams took territories in one short match; it needs more testing. |
| Assault | ⚠ Needs work | yes | Bots pick up the bomb and armed it on Lockdown in a real match; only one match checked so far. |
| Infection | ⚠ Needs work | no | Should work, but I haven't tried it in a real match yet. |
| Ricochet | ⚠ Needs work | no | Bots run the ball to the goal but don't throw it yet; not tried in a real match yet. |
| Grifball | ⚠ Needs work | no | Bots carry the bomb to the goal; not tried in a real match yet. |

### HALO 2 ANNIVERSARY · VEHICLES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Warthog | ● Little buggy | yes | Bots get in, drive, gun and get out well; I haven't checked what they do with a flipped one yet. |
| Gauss Warthog | ⚠ Needs work | no | Supported, but not tried in a real match yet. |
| Mongoose | ⚠ Needs work | no | Supported, but not tried in a real match yet. |
| Gungoose | ● Little buggy | yes | Bots drive it and fire its guns well. |
| Ghost | ● Little buggy | yes | Bots drive and shoot it well, but can't boost it yet. |
| Banshee | ⚠ Needs work | yes | Bots fly it and fire its cannons, but can't drop its bomb or boost yet. |

| Name | Rating | Tested in a match | What to expect |
| --- | --- | --- | --- |
| **Hornet** | Not working | yes | Bots get in but can't make it climb, so it sits on the ground. |
| **Scorpion** | Needs work | no | Supported, but not tried in a real match yet. |
| **Mounted turrets** | Needs work | no | Supported, but not tried in a real match yet. |

# Halo 3

5 little buggy, 16 needs work, 2 not working

## HALO 3 · GAME MODES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Team Slayer | Little buggy | yes | Some of my best matches with the bots have been Halo 3 Slayer. A weapon-swapping bug was just fixed and needs a recheck. |
| Free for All | Needs work | no | Should play like Team Slayer, but I haven't tried plain free for all in a real match yet. |
| Capture the Flag | Needs work | yes | Bots capture flags in shorter matches, but in longer games they don't push the flag enough. |
| Assault | Needs work | yes | Bots have carried and armed the bomb, but results are mixed: one match ended 0-0. |
| Oddball | Little buggy | yes | Bots grab and hold the ball, and both teams score. |
| King of the Hill | Needs work | yes | Bots find and hold the moving hill and score, but when you stand in the hill they can lose track of it. That's fixed and needs a recheck. |
| Territories | Little buggy | yes | Bots take and hold territories well. |
| Juggernaut | Needs work | yes | Bots spot the Juggernaut and team up on him, but I've only tested a few short matches. |
| VIP | Needs work | yes | Bots guard their VIP and hunt the other team's, but I've only tested two short matches. |
| Infection | Needs work | yes | Zombies hunt with the sword and lunge, and survivors hold rooms in groups. Zombies could be passive and, after the first round, bots could mix up who is a zombie; both are fixed and need a recheck. |

## HALO 3 · VEHICLES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Warthog | Needs work | yes | Bots drive and gunners shoot, but drivers often park and wait for a crew. |
| Gauss Warthog | Needs work | no | Supported, but not tried in a real match yet. |
| Transport Warthog | Needs work | no | Not tried yet; bots may treat it like a normal Warthog. |
| Mongoose | Needs work | yes | Bots ride it a lot, but still park and wait at times. |

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Ghost | Little buggy | yes | Bots drive, strafe, shoot and boost into enemies well. |
| Chopper | Little buggy | yes | Bots drive it hard, shoot and boost-ram, though now and then one froze in place. |
| Prowler | Needs work | no | Supported on Forge maps, but not tried yet. |
| Scorpion | Needs work | yes | Bots drive it, but miss a lot of shots and sometimes leave the tank behind. |
| Wraith | Needs work | yes | Bots drive and fire it; a fix to its mortar aim still needs a recheck. |
| Banshee | Needs work | yes | Bots fly it without getting stuck and fire its cannons, but can't drop its bomb yet. |
| Hornet | Not working | yes | Bots get in but can't make it climb, so it sits on the ground. |
| Elephant | Not working | yes | Bots get in but almost never drive it or use its guns. |
| Mounted turrets | Needs work | yes | Bots man the turrets and fire; a fix to their aim still needs a recheck. |

# Halo 3: ODST

1 needs work, 5 not working

### HALO 3: ODST · GAME MODES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| **Firefight** | ⚠ Needs work | yes | Your 3 Firefight bots join your team, each as its own ODST (the Rookie, Mickey, Dutch, Romeo, Buck or Johnson) with or without the helmet, in its own colours, and fight the Covenant. They can't tell weapons or enemy types apart in ODST yet. |

### HALO 3: ODST · VEHICLES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| **Warthog** | ✖ Not working | no | Bots can't get into vehicles in ODST yet. |
| **Mongoose** | ✖ Not working | no | Bots can't get into vehicles in ODST yet. |
| **Ghost** | ✖ Not working | no | Bots can't get into vehicles in ODST yet. |
| **Olifaunt** | ✖ Not working | no | Bots can't get into vehicles in ODST yet. |
| **Mounted turrets** | ✖ Not working | no | Bots can't use any seat in ODST yet, turrets included. |

# Halo: Reach

10 little buggy, 19 needs work, 1 not working

HALO: REACH · GAME MODES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Team Slayer | Little buggy | yes | The mode I've played the most, and it plays well. A couple of recent fixes still need a recheck. |
| Free for All | Needs work | no | Should work, but I haven't tried plain free for all Slayer in a real match yet. |
| Capture the Flag | Little buggy | yes | Bots capture flags and it plays well, but in big games the bot teams don't push the enemy flag enough. |
| Assault | Needs work | yes | Bots pick up and carry the bomb, but I haven't seen them score a plant in a real match yet. |
| Oddball | Little buggy | yes | One of the smoothest Reach modes: bots carry and hold the ball, and both teams score. |
| King of the Hill | Little buggy | yes | Bots hold the hill and score, but it can feel a little slow on the objective. |
| Territories | Little buggy | yes | Bots take and hold territories on Boardwalk, Powerhouse and Boneyard; on Spire they struggle. |
| Juggernaut | Needs work | yes | Played once in a short test: bots with the hammer swing it and get kills. I haven't checked how they hunt the Juggernaut yet. |
| VIP | Needs work | no | Should work, but I haven't tried it in a real Reach match yet. |
| Infection | Needs work | yes | Bots tell zombies from survivors and zombies lunge with the sword; survivors still lean on the magnum more than the shotgun. |
| Headhunter | Needs work | yes | Bots head for the drop points, but often without any skulls to bank. |
| Stockpile | Little buggy | yes | Bots carry flags home and both teams score. |
| Race (Rocket Race) | Little buggy | yes | Race plays well: bots drive their Mongooses through the gates in order, and Rally works too. Rocket Race (not in the custom game list) hasn't been tried. |
| Invasion | Needs work | yes | On Spire the Spartan bots took both territory phases and went for the core, spread over the grav lifts and man cannons, and they now get into the vehicles. I haven't seen them capture the core yet, and Boneyard and custom Invasion maps weren't rechecked. |

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Firefight | Little buggy | yes | Pick bots in the BOTS panel in the Firefight lobby: in Classic up to 7 teammates (8 players with you), in Versus a Spartan team and an Elite team, up to 4 each. They fight the Covenant (or beside it on the Elite side), go for the most dangerous enemies first and leave the dead alone. |
| Generator Defense | Needs work | yes | Spartan bots guard the generators and lock them down when they come under attack, and Elite bots shoot the open ones. The Spartans still lose generators often, because a guard that dies comes back far away. |

HALO: REACH · VEHICLES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Warthog | Needs work | yes | Bots drive and gun it, but often drive alone, use it like a taxi and miss shots. |
| Rocket Warthog | Needs work | yes | Bots drive it and have used its gun, but they don't lock on or lead the rockets yet. |
| Gauss Warthog | Needs work | yes | Bots drive it, but I haven't seen them use its gun in a real fight yet. |
| Transport Warthog | Needs work | yes | Bots drive it; only the front passenger seat is handled so far. |
| Mongoose | Little buggy | yes | Bots drive it well, including through the gates in Race. |
| Ghost | Little buggy | yes | Bots drive, shoot and boost well, boost-ramming included. |
| Revenant | Needs work | yes | Bots drive it, but get stuck on the terrain often. |
| Wraith | Needs work | yes | Bots drive and fire it, but wait for a crew and get stuck on the terrain. They also board enemy Wraiths and take out the driver. |
| Scorpion | Not working | yes | Bots get in but spend most of the time stuck or standing still. They do board enemy tanks and take out the driver. |
| Banshee | Needs work | yes | Banshees fly and boost with real attack and bomb runs, and an empty one now gets a bot pilot during the team's pushes. |
| Falcon | Needs work | yes | Bots fly it onto Spire's top from outside now instead of under it. A pilot should also wait for you when you're beside it and stay in when you take a gun, but I haven't checked that with a person in a match yet. |
| Sabre | Needs work | yes | Bots can fly it, but don't use its missiles or other moves yet. |
| Seraph | Needs work | yes | Bots can fly it, but don't use its weapons yet. |

| Name | Rating | Tested in a match | What to expect |
| --- | --- | --- | --- |
| **Mounted turrets** | ⚠️ **Needs work** | yes | Bots man the turrets and fire, but miss most shots and don't carry a turret they've ripped off. |

# Halo 4

2 little buggy, 18 needs work, 1 not working

## HALO 4 · GAME MODES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Team Slayer (Infinity Slayer) | ⚠ Needs work | yes | Plays and scores, and bots ride vehicles, but they can't pick up weapons off the map yet. |
| Free for All | ⚠ Needs work | yes | Plays smoothly, but bots can't pick up weapons off the map yet. |
| Capture the Flag | ⚠ Needs work | yes | Bots captured and won 2-0 on Adrift, but that's the only map I've tested. |
| Oddball | ⚠ Needs work | yes | Bots carry the ball and score, but I've only checked one short match. |
| King of the Hill | ⚠ Needs work | yes | Bots follow the moving hill, but they stand around a lot and games are one-sided. |
| Regicide | ⚠ Needs work | yes | Bots go after the King; they usually pick the right player, but can misjudge who it is. |
| Extraction | ✖ Not working | no | Not supported yet: bots play it as Slayer and never plant at the sites. |
| Dominion | ⚠ Needs work | no | Bots hold the bases like Territories but don't fortify them. A File Share game type; not tried in a real match yet. |
| Flood | ● Little buggy | yes | Plays like a real game: the Flood rush survivors and use their thrusters, and survivors hold rooms in small groups. The first round can end right away; a fix for that needs a recheck. |
| Ricochet | ⚠ Needs work | no | Bots run the ball to the goal but don't throw it. A File Share game type; not tried in a real match yet. |
| Grifball | ⚠ Needs work | no | Bots carry the bomb to the goal. A File Share game type; not tried in a real match yet. |

## HALO 4 · VEHICLES

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| Warthog | ⚠ Needs work | yes | Bots get in, drive, gun and get out, but drivers stall about half the time. |
| Gauss Warthog | ⚠ Needs work | no | Not tried yet, and bots treat it like a normal Warthog, so the gunner aims wrong. |
| Rocket Warthog | ⚠ Needs work | no | Not tried yet, and bots treat it like a normal Warthog. |
| Mongoose | ⚠ Needs work | yes | Bots ride and drive it, but sit still about a third of the time. |

| Name | Rating | Tested in a match | What to expect |
|---|---|---|---|
| **Ghost** | 🔵 **Little buggy** | yes | Bots drive and shoot it well, but can't boost it yet. |
| **Mantis** | ⚠️ **Needs work** | yes | Bots get in the Mantis, walk it, fire its machine gun and rockets (a longer hold at vehicles) and stomp. I haven't watched one through a whole match yet. |
| **Scorpion** | ⚠️ **Needs work** | yes | Bots drive and fire it, but sit still a lot. I've only checked one match. |
| **Wraith** | ⚠️ **Needs work** | no | Not tried yet, and bots can't boost it. |
| **Banshee** | ⚠️ **Needs work** | yes | Bots fly it and drop its bombs the way players do, but can't boost yet. |
| **Mounted turrets** | ⚠️ **Needs work** | no | Supported, but not tried in a real match yet. |

### Found a problem?

Press F9 in the match right when it happens and type what went wrong. The report is saved with a recording of that moment in the install folder's logs\bug_reports (the launcher's Open the install folder button takes you there).

Then open an issue on the project's GitHub page, say which game, map, mode and difficulty, and attach the report folder zipped. That's the fastest way to get something moved from red or yellow to green.

**Thanks for playing!**
